

THE BEST AIR PURIFIER EVER

Works 4 ways to eliminate pollution from air, surfaces and fabrics

Eliminates odors, smoke, pollen, dust, bacteria, mold, carbon monoxide, pet dander, viruses and much more

Eliminates noticeable pollution in just 15 minutes; Eliminates the most difficult pollution in 24 hours

By John Whitehead, Media Services

BioTech Research has announced EdenPURE™, the ultimate air purifier.

The EdenPURE™ is the best and most advanced air purifier on the market.

It runs super quiet and requires no filter replacement.

Unlike typical air purifiers which have only 1 or 2 mechanisms of eliminating pollution, the EdenPURE™ has 4 mechanisms which eliminate pollution.

There many different types of pollution and many of them, especially the worst, cannot be eliminated with the limited mechanisms of old-style air purifiers. The EdenPURE™ 4-mechanism system destroys all of the types of pollution.

The remarkable EdenPURE™ not only eliminates pollution from the air, but also eliminates pollution embedded in walls, ceilings, floors, carpets, furniture, clothing, and on countertops and other surfaces. It sanitizes everything in the house. The majority of air pollution comes from contaminated surfaces and fabrics.

The air purification technology in the EdenPURE™ is that used by the federal government to purify air in the Space Shuttle and the International Space Station.

The EdenPURE™ relieves allergies, asthma, respiratory problems, provides better sleep, more energy, and better health.

The air purification technology in the EdenPURE™ is that used by the federal government to purify air in the Space Shuttle and the International Space Station.

Old style HEPA filters mainly only remove dust and some allergens. They do not remove the most harmful pollutants such as bacteria, viruses, mold and yeast.

And if you have one of those air purifiers that has no fan, beware. More will be explained on this as you read on.

The EdenPURE™ has a super advanced fan that runs so quiet that you would have to put your ear up next to it to know that it's even running. And the EdenPURE™ is virtually maintenance free.

For more on the new EdenPURE™, here is my remarkable interview with John Whitakre, Chief of Research and Development for BioTech Research.

Q. BioTech Research has been in the air purification business for a long time and your previous air purifier model is an all-time best seller and was super effective. Why is the new EdenPURE™ air purifier so much better?

A. Yes, our previous model was an all-time best seller and in our opinion was the best air purifier on the market, which was also the opinion of our customers.

But the EdenPURE™ is much more advanced. Our previous model used 2 very effective mechanisms to eliminate pollution, which were combinations of activated oxygen and ultraviolet light.

The EdenPURE™ utilizes 4 much more advanced electronic air purification mechanisms.

EdenPURE™ - Never breathe bad air again

Independent Test Results

EdenPURE™ eliminates most pollution in 15 minutes. Bacteria, mold and yeast are among the most difficult pollutants to eliminate. Old style air purifiers never eliminated them. The EdenPURE™ eliminated virtually all the bacteria, mold and yeast in only 24 hours. This independent laboratory test was conducted by Dr. Dee M. Graham, one of the leading air pollution experts in the world.

Testimonies of a few of the many EdenPURE™ satisfied customers

The EdenPURE™ is the most remarkable product that I have tried in years. All of the claims hold true. Not only did it eliminate the dust in my house, I have not had a sinus headache or scratchy throat since I began using it. The whole house smells fresh and clean. You would never be able to tell that I have two dogs and a cat. It is also nice not to have to bother changing filters. You just plug it in, turn it on and forget about it. It is truly refreshing to use a product that does everything that it is supposed to do and more. Michelle Goldsmith

The advanced technology in the EdenPURE™ is that used in spacecrafts such as the Space Shuttle and the International Space Station.

Q. Why is it that you just can't have a good filter system to eliminate air pollution?

A. There are many reasons. First of all, a lot of the most powerful pollutants such as viruses and bacteria and a number of allergens are so small, filters cannot trap them. HEPA filter type air purifiers mainly remove dust and some allergens.

Secondly, filter air purifiers require the air to be brought through the machine. Therefore, it does not get to the air in the far corners of the room. And worse it does not eliminate the main source of the pollution which is contamination on surfaces and embedded in fabrics.

Q. What about those air purifiers that have no fan?

A. It has been well documented in scientific tests that an air purifier without a fan cannot possibly remove pollution to any substantial level. Those types mainly remove pollution that is very close to the unit. That's fine if you're purifying the air in a broom closet, but not for a wide area. Also those units have you wiping off a plate to clean off the trapped pollution. But unless those units have ultraviolet light, that plate contains live bacteria and viruses that can be harmful.

Q. How does the EdenPURE™ eliminate pollution without requiring the air to go through the unit, and how does it eliminate pollution on surfaces and fabrics?

A. The EdenPURE™ has 4 electronic mechanisms of eliminating pollution that mimic the way it is done by nature's thunderstorm. Thunderstorms product highly activated oxygen which destroys pollution and puts negative ions in the air that also destroy pollution and also promote better health. This super activated oxygen produced by thunderstorms is the most devastating to pollution and it is also the source of that aroma that you smell after a thunderstorm that people associate with super fresh air.

Three of the 4 electronic mechanisms in the EdenPURE™ go out and seek out pollution throughout the room, on surfaces, and in fabrics like guided missiles. The pollution cannot hide. These guided missiles also kill bacteria, viruses, yeast and mold.

The EdenPURE™ eliminates all pollution. Amongst the hundreds of pollutants EdenPURE™ eliminates besides bacteria, viruses, mold, yeast and allergens are: fungus, formaldehyde, fecal odors, perfumes, cologne, creosote from fireplaces, methylene chloride, phenols, PCB's, humic acid, DIMP's, glycerols, kepones, methyl ethyl ketones, acetone from fingernail filings, styrene, nitro compounds, formic acid, benzonc, butanes, ethanes, pentanes, propanes, methanes, alcohols, cyanides, detergents, phosphates and many more too numerous to mention.

Q. Does the EdenPURE™ require filter replacement like the old-style HEPA air purifiers?

A. No. There is a small 4 inch by 8 inch pre-filter that

The EdenPURE™ that I used in my apartment for approximately a week was different than any air purifier that I have tried. Everyone was able to take deeper breathes than normal in the apartment. My cats now stay in the room more when someone is smoking. They would not before. My boyfriend's allergies were unnoticeable when he was inside. I personally like the fresh smell the EdenPURE™ let off. Jenny Klco

you simply clean periodically by running water over it. This pre-filter is made of highly durable mesh that will last a lifetime.

Q. So then the EdenPURE™ sanitizes everything in the house?

A. Yes. It sanitizes the air, walls, floors, ceiling, furniture, carpeting, countertop surfaces, sinks, bathtubs, toilets, and even sanitizes your clothes.

Q. How well does the EdenPURE™ work on eliminating odors?

A. The EdenPURE™ will eliminate all odors. It eliminates odors from cigarette smoke, urine, mildew, cooking odors, and any other odors in your home. The EdenPURE™ odor elimination is so powerful that it will eliminate the odor of a skunk in minutes.

After eliminating the odor from the air, the EdenPURE™ then goes to the source of the odor. It eliminates embedded urine in carpet, and cigarette smoke that is embedded in carpet, furniture, wallpaper, and clothing. It also destroys mold and yeast.

Q. What are the health benefits to the EdenPURE™?

A. There are many. The EdenPURE™ will relieve allergies, asthma and other respiratory problems. It also introduces extra oxygen into the air and puts healthy negative ions into the air. Therefore you will sleep better and have much more energy during the day. It eliminates toxins so that they do not get into your body. Therefore you will look better, feel better, and become healthier. You will have energy and be more

I have terrible sinus problems. I'm also allergic to dog and cat dander, grass, dust, and ragweed. Before using the EdenPURE™ I had to take antihistamines and use allergy/sinus nasal spray. I was embarrassed because my eyes were red and I always sounded like I had a cold. I then got the amazing EdenPURE™. I plugged in the EdenPURE™ and went about my daily duties when I suddenly noticed I wasn't coughing or wheezing or clearing my throat. This was incredible. The EdenPURE™ really works! I am so happy. My eyes are clear and I can breath. I've tried many other air purifiers, they're all in my storage room with other failed products. The EdenPURE™ truly does what it claims to do. Diane C. Vance

The EdenPURE™ can change the mood of everyone in the house for the better.
