

EDENPURE Quartz Infrared HEATER SPECIFICATIONS

Provided by www.EdenPureSale.com

New Energy Tech Company aka NETCO

EDENPURE GEN4

- 30 Day NETCO Guarantee / 5 Year Manufacturer Warranty
- The GEN4 heater runs much quieter than other models
- Front Panel Push Button Controls
- IR Remote Control
- Caster Wheels
- Electronic Thermostat: range 50 to 90 degrees
- Heating coverage is up to 1,000 sq. ft.
- Height: 18" Width: 13" Depth: 16"
- Weight: 27 lbs.
- Fire resistant black polycarbonate and galvanized steel shell
- Overheat protection – sensor will shut off heater if it reaches an excessive heat level
- GEN4 heater contains 3 Sylvania infrared quartz bulbs
- Average life expectancy on units is 10 to 15 years on unit and 20,000 hours on bulbs
- Filter can be cleaned with warm water or a vacuum once removed from the back of the unit
- BTUs: GEN4 is approx. 5,000
- Listed by Underwriters Laboratories (UL) File E307136
- Uses normal 110 volt outlet and 12.5 amps/1483 watts
- All parts and bulbs are serviceable
- Made in factories throughout Asia
- Conserves energy compared to most other heaters
- NETCO Free Shipping in the Continental USA - Alaska & Hawaii are \$50 extra.

EDENPURE USA 1000

- 30 Day NETCO Guarantee / 5 Year Manufacturer Warranty
- Front Panel Push Button Controls
- IR Remote Control
- Electronic Thermostat: range 50 to 90 degrees
- Heating coverage is up to 1,000 sq. ft.
- Heats up to 1000 square feet
- Caster Wheels
- Filter can be cleaned with warm water or a vacuum once removed from the back of the unit
- Modular design - galvanized steel inside / poly propylene shell
- Steel and ABS copolymer cabinet
- Weight: 33 lbs.
- Uses conventional 110v 3 prong outlet
- Height: 16" Width: 13.25" Depth: 19.5"
- Electric Cord 72" long, 14 Gauge
- Rated at approximately 5000 BTU
- Amps: 12.5
- Watts: 1500
- Uses 3 Sylvania commercial infrared quartz tubes
- Average life expectancy on units is 10 to 15 years on unit and 20,000 hours on bulbs
- Uses 3 Copper heat exchangers
- **Made in the USA**
- Conserves energy compared to most other heaters
- Listed by Underwriters Laboratories (UL) US No. E328205
- NETCO Free Shipping in the Continental USA - Alaska & Hawaii are \$50 extra.

EDENPURE GEN3 1000

- 30 Day NETCO Guarantee / 3 Year Manufacturer Warranty
- Front Panel Push Button Controls
- IR Remote Control
- Electronic Thermostat: range 50 to 90 degrees
- Heats up to 1000 square feet
- Caster Wheels
- Filter can be cleaned with warm water or a vacuum once removed from the back of the unit
- Modular design - galvanized steel inside / poly propylene shell
- ABS copolymer cabinet
- Weight: 26 lbs.
- Uses conventional 110v 3 prong outlet
- Height: 17" Width: 13" Depth: 18"
- Electric Cord 6.5' (78") long, 14 Gauge
- Rated at approximately 5000 BTU
- Amps: 12.5
- Watts: 1483
- Uses 6 commercial infrared quartz tubes
- Uses 3 Copper heat exchangers
- Made in factories throughout Asia
- Conserves energy compared to most other heaters
- Listed by Underwriters Laboratories (UL) No. E307136
- Conserves energy compared to most other heaters
- NETCO Free Shipping in the Continental USA - Alaska & Hawaii are \$50 extra.

SUN TWIN GEN3

- 30 Day NETCO Guarantee / 3 Year Manufacturer Warranty
- Front Panel Push Button Controls
- IR Remote Control
- Electronic Thermostat: range 50 to 90 degrees
- Heats up to 1000 square feet
- Caster Wheels
- Filter can be cleaned with warm water or a vacuum once removed from the back of the unit
- Modular design - galvanized steel inside / wood shell
- Oak Veneer wood cabinet
- Weight: 44 lbs.
- Uses conventional 110v 3 prong outlet
- Height: 17" Width: 13" Depth: 18"
- Electric Cord 6.5' (78") long, 14 Gauge
- Rated at approximately 5000 BTU
- Amps: 12.5
- Watts: 1483
- Uses 6 commercial infrared quartz tubes
- Uses 3 Copper heat exchangers
- Made in factories throughout Asia
- Conserves energy compared to most other heaters
- Listed by Underwriters Laboratories (UL) No. E307136
- NETCO Free Shipping in the Continental USA - Alaska & Hawaii are \$50 extra.

EDENPURE PERSONAL GEN3 500

- 30 Day NETCO Guarantee / 3 Year Manufacturer Warranty
- Rear Panel Push Button Controls
- No Remote Control
- Electronic Thermostat: range 50 to 90 degrees
- Heats up to 300 square feet
- Filter can be cleaned with warm water or a vacuum once removed from the back of the unit
- Modular design - galvanized steel inside / poly propylene shell
- ABS copolymer cabinet
- Weight: 21 lbs.
- Uses conventional 110v 3 prong outlet
- Height: 14" Width: 11" Depth: 14"
- Electric Cord 6.5' (78") long, 14 Gauge
- Rated at approximately 2300 BTU
- Amps: 7.5
- Watts: 900
- Uses 3 commercial infrared quartz tubes
- Uses 1 Copper heat exchanger
- Made in factories throughout Asia
- Conserves energy compared to most other heaters
- Listed by Underwriters Laboratories (UL) No. E307136
- NETCO Free Shipping in the Continental USA - Alaska & Hawaii are \$50 extra.

PURATRON FIREPLACE

- 30 Day NETCO Guarantee / 3 Year Manufacturer Warranty
- Front Panel Controls – High, Medium, and Low Heat
- Heats up to 1000 square feet
- Caster Wheels
- Wood Veneer Mantle Cabinet
- Uses conventional 110v 3 prong outlet
- Electric Cord 6.5' (78") long, 14 Gauge
- Rated at up to approximately 5000 BTU
- Watts: 1500
- PTC Ceramic Infrared Elements
- Mantle: Weight: 58.4 Lbs. Dimensions: 37" x 36" x 14"
- Insert: Weight: 52.4 Lbs. Size: 24 1/8" x 22 1/16" x 10 1/2"
- Ships in 2 boxes (Some Assembly is Required)
- Comes w Remote Control & Optional Wheels
- 6 Ember Settings – Low to High (Realist but Safe) Flames
- Made in factories throughout Asia
- All Components are UL or CSA Safety Certified
- Conserves energy compared to most other heaters
- NETCO Free Shipping in the Continental USA - Alaska & Hawaii are \$100 extra.

SAVE BIG ON HEATING COSTS... The improved new advanced quartz infrared portable heaters by EdenPURE™ & SunTwin (by EdenPURE), have the real potential to reduce your heating bills. The EdenPURE™ heaters may pay for themselves in a matter of weeks and then start putting a great deal of extra money in your pocket after that. And that's just the start of the benefits for the new EdenPURE™ Quartz Infrared Portable Heaters.

The GEN3 & GEN4 can be run on "Auto" mode; if the mode is set to "Auto" the unit will cycle on and off to maintain the desired temperature setting. They are also equipped with a "HIGH" mode; if the mode is set to "High" the unit will stay on Full power at the highest heat setting and keep heating. It will not cycle off on "High" mode.

When the new EdenPURE GEN3 and GEN4 are set on the "Auto" mode and cycling off and on, they have been equipped with an Energy Savings feature. The unit will run on full power until it gets to within 2 degrees of the desired temperature.

At this point they will automatically go into an energy savings mode which shuts down 2 of the heating elements and lowers the fan speed. Not only will this save energy, it also keeps the room temperature closer to the desired temperature. If the room temperature should fall below 2 degrees the unit will return to the full power mode until the desired temperature is reached again.

The EdenPURE™ GEN4 and GEN3 come in the decorator color of black with burl wood accent and are now available from EdenPureSale.com in the newest models. Don't let high energy costs get you down and order your EdenPURE™ Quartz Infrared Portable Heater for your home or office today... Plus, we always have the lowest prices!

EdenPURE GEN3 & GEN4 Quartz Infrared Heaters are the "Big Brothers" to the EdenPURE Heaters (sold by Biotech Research) as seen on ads by Bob Vila. Same exact insides, just different cabinets, from the same company (Suarez Industries). The Eden PURE & SunTwin quartz infrared heaters give you healthy, comfortable, and economical heat.

NETCO SATISFACTION GUARANTEE & RETURN POLICY - You can return or exchange any purchase within 30 days for any reason but the CUSTOMER MUST PAY the Return Shipping and Handling Fees.

NOTE: To be eligible for a refund, the merchandise must be in new condition, packed in its original manufacturer box and include all original packaging material, original manuals and any accessories that came with the item. Items that are returned in unsellable condition, are missing parts, or returned to us without authorization will be charged a 10%-20% restocking fee at our discretion.

New Energy Tech Company must receive your return request by phone within approximately 25 days after the date you received your items so that your purchase will reach us by the 30 day limit. Please contact us by Phone FIRST with your "Proof of Purchase" and your "Product Serial Number" for your Return Authorization and the "Return To" address. Customer is responsible for Shipping & Tracking (and Costs) on Returned Goods. For Service or to make a Return Request please Call: 303-225-8020.

CREDIT CARD REFUNDS: Please allow 14 business days after our warehouse receives your package for a refund to be processed to your credit card. This time does not include the time it takes for the item to be returned to our warehouse or the time involved to process a claim. NOTE: If you Cancel an order "Before you have received it" ... There will be a 10% Cancellation Fee subtracted from your Refund.

Frequently Asked Questions

Q. What is ABS Plastic Cabinet? A. Acrylonitrile butadiene styrene (a heat resistant copolymer plastic)

Q. What is a SunTwin EdenPURE Quartz Infrared Heating System? A. Our Heating System is a revolutionary zone furnace that safely and efficiently heats entire areas that need additional heat.

Q. How does the initial cost and savings compare to other heaters?

A. The SunTwin & Eden PURE is a unique blend, built with yesterday's quality using tomorrow's technology, incorporating a beautiful cabinet, galvanized steel and micro-electronic genius. To invest in similar technology that would heat a comparable area could easily cost twice the initial investment without delivering the exclusive features and safe healthy benefits in this 3rd generation portable zone furnace.

Q. What's the difference between the SunTwin and EdenPURE heaters?

A. The SunTwin Heaters are "Big Brothers" to the Eden PURE Infrared Heaters (as heard on PAUL HARVEY News and sold nationwide by BioTech Research). Same insides, just different cabinets, from the same company - Suarez Corporation in North Canton, Ohio. The SunTwin has a wood cabinet and costs a few dollars more... The Eden PURE has a polypropylene cabinet.

Q. How much does it cost to run? A. Good question... because the cost to run the heater can vary quite a bit. The heater turns itself on and off with it's own thermostat so how much electricity it uses depends on many different factors... like how much insulation you have... how cold it is... if you have any drafts in the room... etc... but basically when the 1500 watt heater is on... it uses 1500 watts of electricity... about the same as a coffee maker or a hair dryer. The average cost to run one of these 1500 watt infrared heaters is about \$1 per day... when it's heating for about 8 hours... and the better your insulation... the lower the cost to run these heaters.
